Interactive Frames™ v1.2

Edwin Ellis (205) 394-5512 edwinellis1@gmail.com

Interactive Frames TM features a series of interactive PDF files and ready-to-use Power Point files with builtin animation features digital *Frames* TM as well as samples of how teachers have used each of them.

Edge Enterprises, Inc.

Because they are digital files, teachers or students can use a keyboard to type information directly into the text boxes on the *Frames* TM. Likewise, you can email copies of the Frames TM to students, so they can use them when completing assignments outside of the classroom. and students can submit the completed work electronically.

When you develop a *Frames* TM for specific instructional units, you can save your completed (or partially completed) *Frames* TM to a folder that contains other related unit information and files.

The Power Point versions are ideal for use with White Boards, Promethium

Boards, and LCD projectors when displaying a Frames TM to a class and developing the information on it during a class activity. The interactive PDF file versions of the Frames TM work with Macs. PCs and most importantly tablets such as iPads. These are ideal for "paperless" schools. The blackline versions are more appropriate for printing hard copies to share with your students.

Licensed users of the *Interactive Frames*TM software may make and distribute copies of FramesTM to students for whom they are responsible for teaching, but they may not be shared with non-licensed teachers or students not on the licensed teacher's role. Multi-teacher license versions of the software may be uploaded to the school's network service or cloud service so that licensed teachers and students can access them from home or classrooms.

NOTE: Immediate download of *Interactive Frames* TM is available at **www.MakesSenseStrategies.com** and is for a single-user (teacher) software license.

Interactive FramesTM CDs, multi-user licenses, or bulk purchases of the program should be ordered from: **Edge Enterprises, Inc**
